MEDICAL TREATMENT UTILIZATION SCHEDULE (MTUS) DRUG FORMULARY – EFFECTIVE 1.1.18

The Division of Workers' Compensation (DWC) has adopted (MTUS) Drug Formulary as set forth in Section 9792.27.5 and the formulary rules set forth in Sections 9792.20 through 9792.27.23. Drugs prescribed to treat a work related injury or illness fall within Labor Code section 4600's definition of "medical treatment" and are subject to the relevant provisions of the MTUS, including the MTUS Treatment Guidelines. It is important to know these new rules may affect injured employees claim.

- ✓ The MTUS Drug Formulary applies to drugs dispensed on or after 1.1.18
- ✓ If the date of injury is before 1.1.18 and injured employees are receiving ongoing treatment, a phased in approach will apply to ensure an abrupt change in treatment is avoided

For more information about the drug formulary, please visit the Division of California Workers' Compensation website at: <http://www.dir.ca.gov/dwc/DWCPropRegs/MTUS-Formulary/MTUS-Formulary.htm>.
